

St Mary's Catholic Primary School Accessibility Plan 2020-2023

St Mary's School is an outstanding Catholic school. The extremely strong Catholic identity permeates the school's daily life. The committed leadership of the headteacher and governors effectively promotes a strong spiritual purpose within the Catholic ethos. Prayer, mass and worship are of pivotal importance in the school's life. Staff are committed to the very high profile given to religious education.

We want all children to enjoy school, to be challenged to achieve their very best, and to consider school to be a place to thrive and learn. We are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter.

Purpose of Plan

This plan shows how St Mary's Catholic Primary School intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

Definition of disability

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day to-day activities.

Areas of planning responsibilities:

Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits)
Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education)
Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe.

Contextual Information

St Mary's Catholic Primary School is a single-storey one-form-entry primary school built originally as an infant school in the 1960's and added to as needs dictated.

No entrances to the school have steps. At present we have no wheelchair dependent pupils, parents or members of staff.

Current Range of known disabilities

The school has a small number of children with social and communication difficulties (ASD) and physical disabilities (cerebral palsy).

Increasing access for disabled pupils to the school curriculum.

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes. It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural

activities and educational visits. The only exception would occur if a child had breached school rules when deprivation of club attendance may be used as a suitable short term sanction and to ensure the safety of others.

Improving access to the physical environment of the school

The key stage 2 corridor is narrow, less than a metre wide in places and houses the Y3 and Y4 cloakrooms. The school comprises: 8 classrooms, a sensory room, administration rooms and a library. A disabled toilet is available.

Provision, in exceptional cases, will be negotiated when a pupil's needs are known.

We have a wide range of equipment and resources available to us for day to day use. We keep resource provision under constant review. The school's development plan is the vehicle for considering such needs on an annual basis.

Improving the delivery of written information to disabled pupils

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts and information about school events. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe.

In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required. The school's IT infrastructure will enable us to access a range of materials supportive to need.
