

Autumn 2025

Year 5

We created beautiful artwork of the Burning Bush, inspired by the story of Moses. They highlighted the *Word of God* within their pieces, showing how God spoke to Moses and shared His message. The artwork reflects their understanding of how God communicates with His people.

We also created thoughtful artwork showing what sin is and how it can damage our relationship with God. Their pieces beautifully expressed how we can repair that relationship through seeking forgiveness and reconciliation.

In Art, we have been looking at the artwork by Friedensreich Hundertwasser who used line and colour in interesting ways to show landscapes. We had a go at making some of our own, trying to utilise some of the techniques we noticed in his artwork.

In Maths, we have been developing our confidence with place value, addition and subtraction, multiplication and division and lots of word problems!

In English, we have focused on writing with greater detail and accuracy, using ambitious vocabulary and varied sentence structures. We have also explored a range of texts to inspire our writing and improve our comprehension skills.

In Science, we have been learning about solutions and reversible and irreversible changes. We have also learned about the human life cycle and how our bodies change as we go through puberty.

In History, we have been studying the ancient Greeks, discovering their impact on modern life and exploring their myths, democracy, and daily life.

In Geography, we have started to learn about the world—the longitudinal and latitudinal lines that help us to find locations on it and how the location of a place can affect its climate.

It has been a fantastic start to the year in Year 5.
