

April 2025

In RE, we have enjoyed learning about Lent and the true meaning behind Ash Wednesday. We have focused on Almsgiving, Fasting and Prayer. We took some time in the Willow Garden to learn about the Sorrowful Mysteries and how to pray using the Rosary. We reflected on the Mysteries and how Jesus would have felt at these different times. Highlighting the importance of prayer and reconciliation.

We were fortunate to have Woodbridge school provide a free Lego workshop. We enjoyed using the kits to create buggies and we even attached battery packs to get them to move and have mini races!

In Design and Technology we had great fun building a bridge structure. We learnt about the Ironmaster Abraham Darby and create our own bridge structure that we then tested how much weight it could hold!

We were very lucky to have author Ellie Irving visit us and we even had a special writing workshop with her! We were able to create our own characters and begin to create our own plots to go with our story!

We really enjoyed the opportunity to get creative with Lily from UWU Art Studio. We learnt lots about Lily and her journey to becoming an artist. We had the opportunity to be inspired by her use of colour to create our own wonderful pieces. We then had the opportunity to complete a galloping gallery, where we were able to look at and give feedback to each other. We particularly liked that Lily had the opportunity to design the programme cover for the Ipswich Town vs Man City game!
