

May 2026

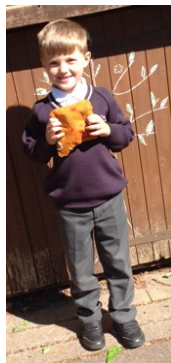

Year 1

In RE we have enjoyed learning about the ascension of Jesus and Bible stories including The Road to Emmaus and the story of Pentecost. We have great fun creating our own craft to show Jesus returning to heaven to be with his Father, leaving the promise of the Holy Spirit's arrival with the Apostles.

In English we are currently focusing on writing instructions. We had great fun making our own sandwich and writing instructions to guide people on how to create their own!

In DT we have been focusing on textiles. We looked at a company called the Maua Gang who turn drawings into plushies! We enjoyed designing and making our very own plushies!

In Computing we have been looking at different types of technology, considering the purpose and uses for these different technologies.

In Maths we have been focusing on place value up to 50. We have been focusing on identifying the number of tens and ones in a number as well as partitioning them to show their value.

In Science, we have been learning about the different types of animals. We have currently looked at the features of mammals, birds and amphibians. I have been so impressed with the children's recall and knowledge of their animal facts!

In Geography we have been learning about hot and cold places, introducing vocabulary such as the equator and identifying the hot, warm and cold locations on a map.

The children have worked incredibly hard over the course of this year and I cannot believe this is the final newsletter of the year! The children have made excellent progress this year and I am very proud of all them.

Have a lovely half term break! :)
