

This half term, Year 6 have been working hard on new topics as well as revising past topics.

They have enjoyed lots of outside time in the afternoons to build memories with their peers, as they will soon be moving on to secondary school.

The images above showcase the children making memories, while recapturing past memories by making their leavers memory boxes—a long standing tradition at St Mary's that the children enjoy. These will then be on display at their leavers assembly and for sharing with parents and friends afterwards.

Mrs D-N and Mrs Ahmed are very proud of how the children have grown over the year and feel they are more than ready to start the next chapter of their education.

Everyone in the St Mary's community wishes them well.
