

# How to make your own bird feeder

## What you need:

- dry ingredients
  - bird seed
  - dried fruit
  - cooked rice
  - breadcrumbs
  - grated cheese
  - chopped nuts

- hard cooking fat (lard or dripping)

- a fir cone, coconut shell or yoghurt pot

- string 

- 1 Mix all the dry ingredients together in a bowl

- 2 Add the fat and give it a good mix around

- 3 Choose your feeder

plaster all over a fir cone

put it round the inside of a coconut shell

press into a yoghurt pot

You can hang this upside down like a bell or turn it out like a cake

- 4 Hang your feeders with string (you may need to make holes and tie the string in before adding the mix)

Hang your feeder where you can watch birds without disturbing them

If you need to melt the fat, ask an adult to help
